2026 Cirrus SR22T Program Economics

OPTION 1

Bridge Aircraft with Program pre-pay[6,7]

Owner Investment (per share)	**$114,148**
Ownership per Share	**1 of 15 units (6.67%)**

Operational costs such as consumables, crew, etc. not included**

New Aircraft Details (per Share)	
Owner Investment	**$114,148**
Cirrus SR22T GTS G7+ Retail Price	*$99,679*
Estimated Taxes[2]	*$7,775*
bop Aero Program Acquisition Costs[3]	*$6,694*
Projected Program Fee Details (per Share)	
Projected SR22T GTS G7+ Annual Program Fee*	**~$36,403**
Insurance, Storage, Maintenance, Cleaning & Detailing, Internet, Flight Data, Management fee, Fleet Modernization-Future Value Reserve	

(over)

OPTION 2

Bridge Aircraft with Program post-pay[6,7]

Owner Investment (per share)	**$76,081[1]**
Projected Capital Requirement due at the time of new aircraft purchase†	**~$38,067**

Bridge Aircraft Details (per Share)	
Owner Investment	**$76,081**
2022 Cirrus SR22T G6 GTS Acquisition Price	*$62,857*
Estimated Taxes[2]	*$4,903*
bop Aero Program Acquisition Costs[3]	*$1,769*
Engine/Powerplant Reserve[5]	*$6,552*
Projected Program Fee Details (per Share)	
Projected SR22T GTS G7+ Annual Program Fee*	**~$36,403**
Insurance, Storage, Maintenance, Cleaning & Detailing, Internet, Flight Data, Management fee, Fleet Modernization-Future Value Reserve	

* * *

Founder's Circle Program (optional)

Founder's Circle Activation (one-time)[4]	**$5,707**
Founder's Circle (billed annually)[4]	**$9,101**

** Subject to change annually due to material and supply chain constraints. However, Founder's Circle fees are fixed for the program duration, which is tied to the aircraft serial number.*

*** Fuel/Oil costs average ~$130 per flight hr and are subject to market fluctuations. Contract pilot costs can vary from pilot to pilot based on their experience. Generally speaking, daily rates from $500-$1,500 per day + expenses are good estimates for planning purposes.*

† Projected capital requirements based on aircraft depreciation with anticipated usage prior to new aircraft delivery.

[1] Acquisition costs such as taxes, warranties, and legal registrations are estimated and included as part of the price.

[2] Taxes vary from state to state and county to county. Taxes will be calculated based on the location that aircraft is based.

[3] Acquisition costs borne by bop Aero to set up and manage each program aircraft. Includes support equipment and parts stores.

[4] Three (3) Shares reserved for Founder's Circle program per aircraft. See the Founder's Circle Detail Sheet for Founder pricing and terms.

[5] The bridge aircraft post-pay option includes a one time Engine/Power-plant Reserve fee. This is to mitigate against engine and power-plant costs not covered by the bridge aircraft's "Cirrus Spinner-to-tail warranty". Any monies not used from this fund will be credited to each owner's capital requirement necessary to acquire the new Cirrus SR22T G7+ (or newer equivalent).

[6] Each share receives up to 96 flying hours per year, measured by the Hobbs meter. For scheduling, Flight Circle holds 5 hours per reserved day; only actual Hobbs time is deducted.

[7] Fourteen (14) shares available for purchase.
