2026 Cirrus SR22T Program Economics

OPTION 1

Bridge Aircraft with Program pre-pay[6,7]

Owner Investment (per share)	**$100,956**

Operational costs such as consumables, crew, etc. not included**

New Aircraft Details (per Share)	
Owner Investment	**$100,956**
Cirrus SR22T GTS G7+ Retail Price	*$93,033*
Estimated Taxes[2]	*$7,257*
bop Aero Program Acquisition Costs[3]	*$666*
Projected Program Fee Details (per Share)	
Projected SR22T GTS G7+ Annual Program Fee*†	**~$33,976**
Insurance, Storage, Maintenance, Cleaning & Detailing, Internet, Flight Data, Management fee, Fleet Modernization-Future Value Reserve	

(over)

OPTION 2

Bridge Aircraft with Program post-pay[6,7]

Owner Investment (per share)	**$71,009[1]**
Projected Capital Requirement due at the time of new aircraft purchase††	**~$29,947**

Bridge Aircraft Details (per Share)	
Owner Investment	**$71,009**
2022 Cirrus SR22T G6 GTS Acquisition Price	*$58,667*
Estimated Taxes[2]	*$4,576*
bop Aero Program Acquisition Costs[3]	*$1,651*
Engine/Powerplant Reserve[5]	*$6,115*
Bridge Aircraft Program Fee (per Share)	
2022 SR22T G6 GTS Annual Program Fee*†[5]	**~$22,153**
Insurance, Storage, Maintenance, Cleaning & Detailing, Internet, Flight Data, Management fee	

* * *

Founder's Circle Program (optional)

Founder's Circle (billed annually)[4]	**$8,494**

** Subject to change annually due to material and supply chain constraints. However, Founder's Circle fees are fixed until replaced by a new program aircraft.*

*** Fuel/Oil costs average ~$130 per flight hr and are subject to market fluctuations. Contract pilot costs can vary from pilot to pilot based on their experience. Generally speaking, daily rates from $500-$1,500 per day + expenses are good estimates for planning purposes.*

† Owners will pay the bridge aircraft annual program fee until the new aircraft is acquired. The annual program fee will then be reset to reflect the SR22T GTS model received.

†† Projected capital requirements based on aircraft depreciation with anticipated usage prior to new aircraft delivery.

[1] Acquisition costs such as taxes, warranties, and legal registrations are estimated and included as part of the price.

[2] Taxes vary from state to state and county to county. Taxes will be calculated based on the location that aircraft is based.

[3] Acquisition costs borne by bop Aero to set up and manage each program aircraft. Includes support equipment and parts stores.

[4] Three (3) Shares reserved for Founder's Circle program per aircraft.

[5] In lieu of a Future Value Reserve used for aircraft modernization, the bridge aircraft post-pay option substitutes a one time Engine/Power-plant Reserve fee. This is to mitigate against engine and power-plant costs not covered by the bridge aircraft's "Cirrus Spinner-to-tail warranty". Any monies not used from this fund will be credited to each owner's capital requirement necessary to acquire the new Cirrus SR22T G7+ (or newer equivalent).

[6] Each share receives an annual allotment of days based on their annual flying hours. This is determined by ownership equity.

[7] Fifteen (15) shares available for purchase.
